DUKAT MACEDONIA ON BEHALF OF LACTALIS DAIRY INDUSTRY

declares an

INTERNATIONAL SCHOLARSHIP ANNOUNCEMENT

Dukat Macedonia, member of Dukat Group and the French dairy industry LACTALIS, invites all qualified applicants to apply for a company sponsored Msc program in France, EFA (Etudiants Internationaux en Formation par Alternance). The program consists of 2 years of post graduate studies and practical internship in Lactalis factories in France plus a minimum of 2 years of work in Dukat/Lactalis factories in Macedonia or surrounding countries.

WHO ARE WE?

LACTALIS GROUP is a French, family owned company, one of the largest dairy group in the world with 9,4 billion EUR turnover and milk collection of 9,9 billion liters. It has 38,200 employees world wide and 126 production sites mostly in rural areas. We are the world no 1 cheese producer respecting expertise, innovation and tradition.

Dukat is the no 1 dairy brand in Croatia and one of the leading dairy product brands in SE Europe. In Macedonia we represent a developing business with one production site in Bitola (Ideal Šipka) and are already market leaders in the traditional cheese segment produced out of domestic milk, with annual turnover of 12 million EUR per year.

IF YOU ARE:

• a food technologist with acquired bachelor and/or master level degree (at least 4 years of studies)
• under 26 years of age
• with a C1 (advanced) level of English
• interested in an industrial rather than a scientific career
• interested in a 2 year Msc program in France sponsored by LACTALIS GROUP starting in autumn 2011 and followed by a minimum of 2 years of work in a Dukat/Lactalis factory in Macedonia or surrounding countries
• mobile, hard working and ambitious
• don’t hesitate to contact us for further information at ljudski-potencijali@dukat.hr by May 21st.

Interested applicants will get all requested additional information on the scholarship program and our company and will receive a formal application form to fill.

For additional information and support of your application locally feel free to contact Eleonora Winkelhausen, PhD, Professor, University SS. Cyril and Methodius - Skopje, Faculty of Technology and Metallurgy, e-mail: eleonora@tmf.ukim.edu.mk
